

LEGEND:

- ⊗ BLM MONUMENT (found this survey)
- ⊙ MONUMENT (found this survey)
- ⊥ 5/8" REBAR (set this survey)
- () RECORD DATUM
- HEA Transmission Pole

NOTES:

- 1) Proposed land uses are recreational, residential, agricultural, and commercial.
- 2) Basis of bearing taken from Lucason Subdivision, Plat 89-26, Kenai Recording District.
- 3) Building Setback - A setback of 20 feet is required from all street rights-of-way unless a lesser standard is approved by resolution of the appropriate Planning Commission. This does not apply to lots 9 thru 13 which have the transmission line easement adjacent to the ROW.
- 4) Roads must meet the design and construction standards established by the borough, in order to be certified for inclusion in the borough road maintenance program.
- 5) All waste disposal systems shall comply with existing laws at the time of construction.
- 6) No private access to State maintained ROWs permitted unless approved by the State of Alaska Department of Transportation.
- 7) Rights-of-Way information for Deep Creek Road was taken from the plat of Deep Creek Park Subd. No. 2, plat 95-10, KRD.
- 8) Front 10 feet of the building setback and the entire setback within 5 feet of side lot lines is also a utility easement, except for lots 9 thru 13. No permanent structure shall be constructed or placed within a utility easement which would interfere with the ability of a utility to use the easement.
- 9) Transmission Line Easement: Construction of public roads shall be restricted to the outer 20 feet of, one side or the other, but not both, of the easement. Public roads or driveways crossing the easement shall be located as nearly perpendicular to the transmission line as is reasonably possible. No portion of a road or driveway shall be closer than 25 feet to a transmission line pole/structure. No excavation or fill within the easement is allowed without the express written permission of HEA. No buildings, septic systems, structures or wells are allowed within the easement.
- 10) Placement of wells and septic systems on lots in this subdivision shall be in accordance with the Engineer's Working Map. A copy of the Working Map is on file with the Engineer's Soils Report at the Kenai Peninsula Borough Planning Department.
- 11) WASTEWATER DISPOSAL: Soil conditions, water table levels, and soil slopes in this subdivision have been found suitable for conventional onsite wastewater treatment and disposal systems serving single-family or duplex residences and meeting the regulatory requirements of the Kenai Peninsula Borough. Any other type of onsite wastewater treatment and disposal system must be designed by a professional engineer, registered to practice in Alaska, and the design must be approved by the Alaska Department of Environmental Conservation.

SURVEYOR'S CERTIFICATE

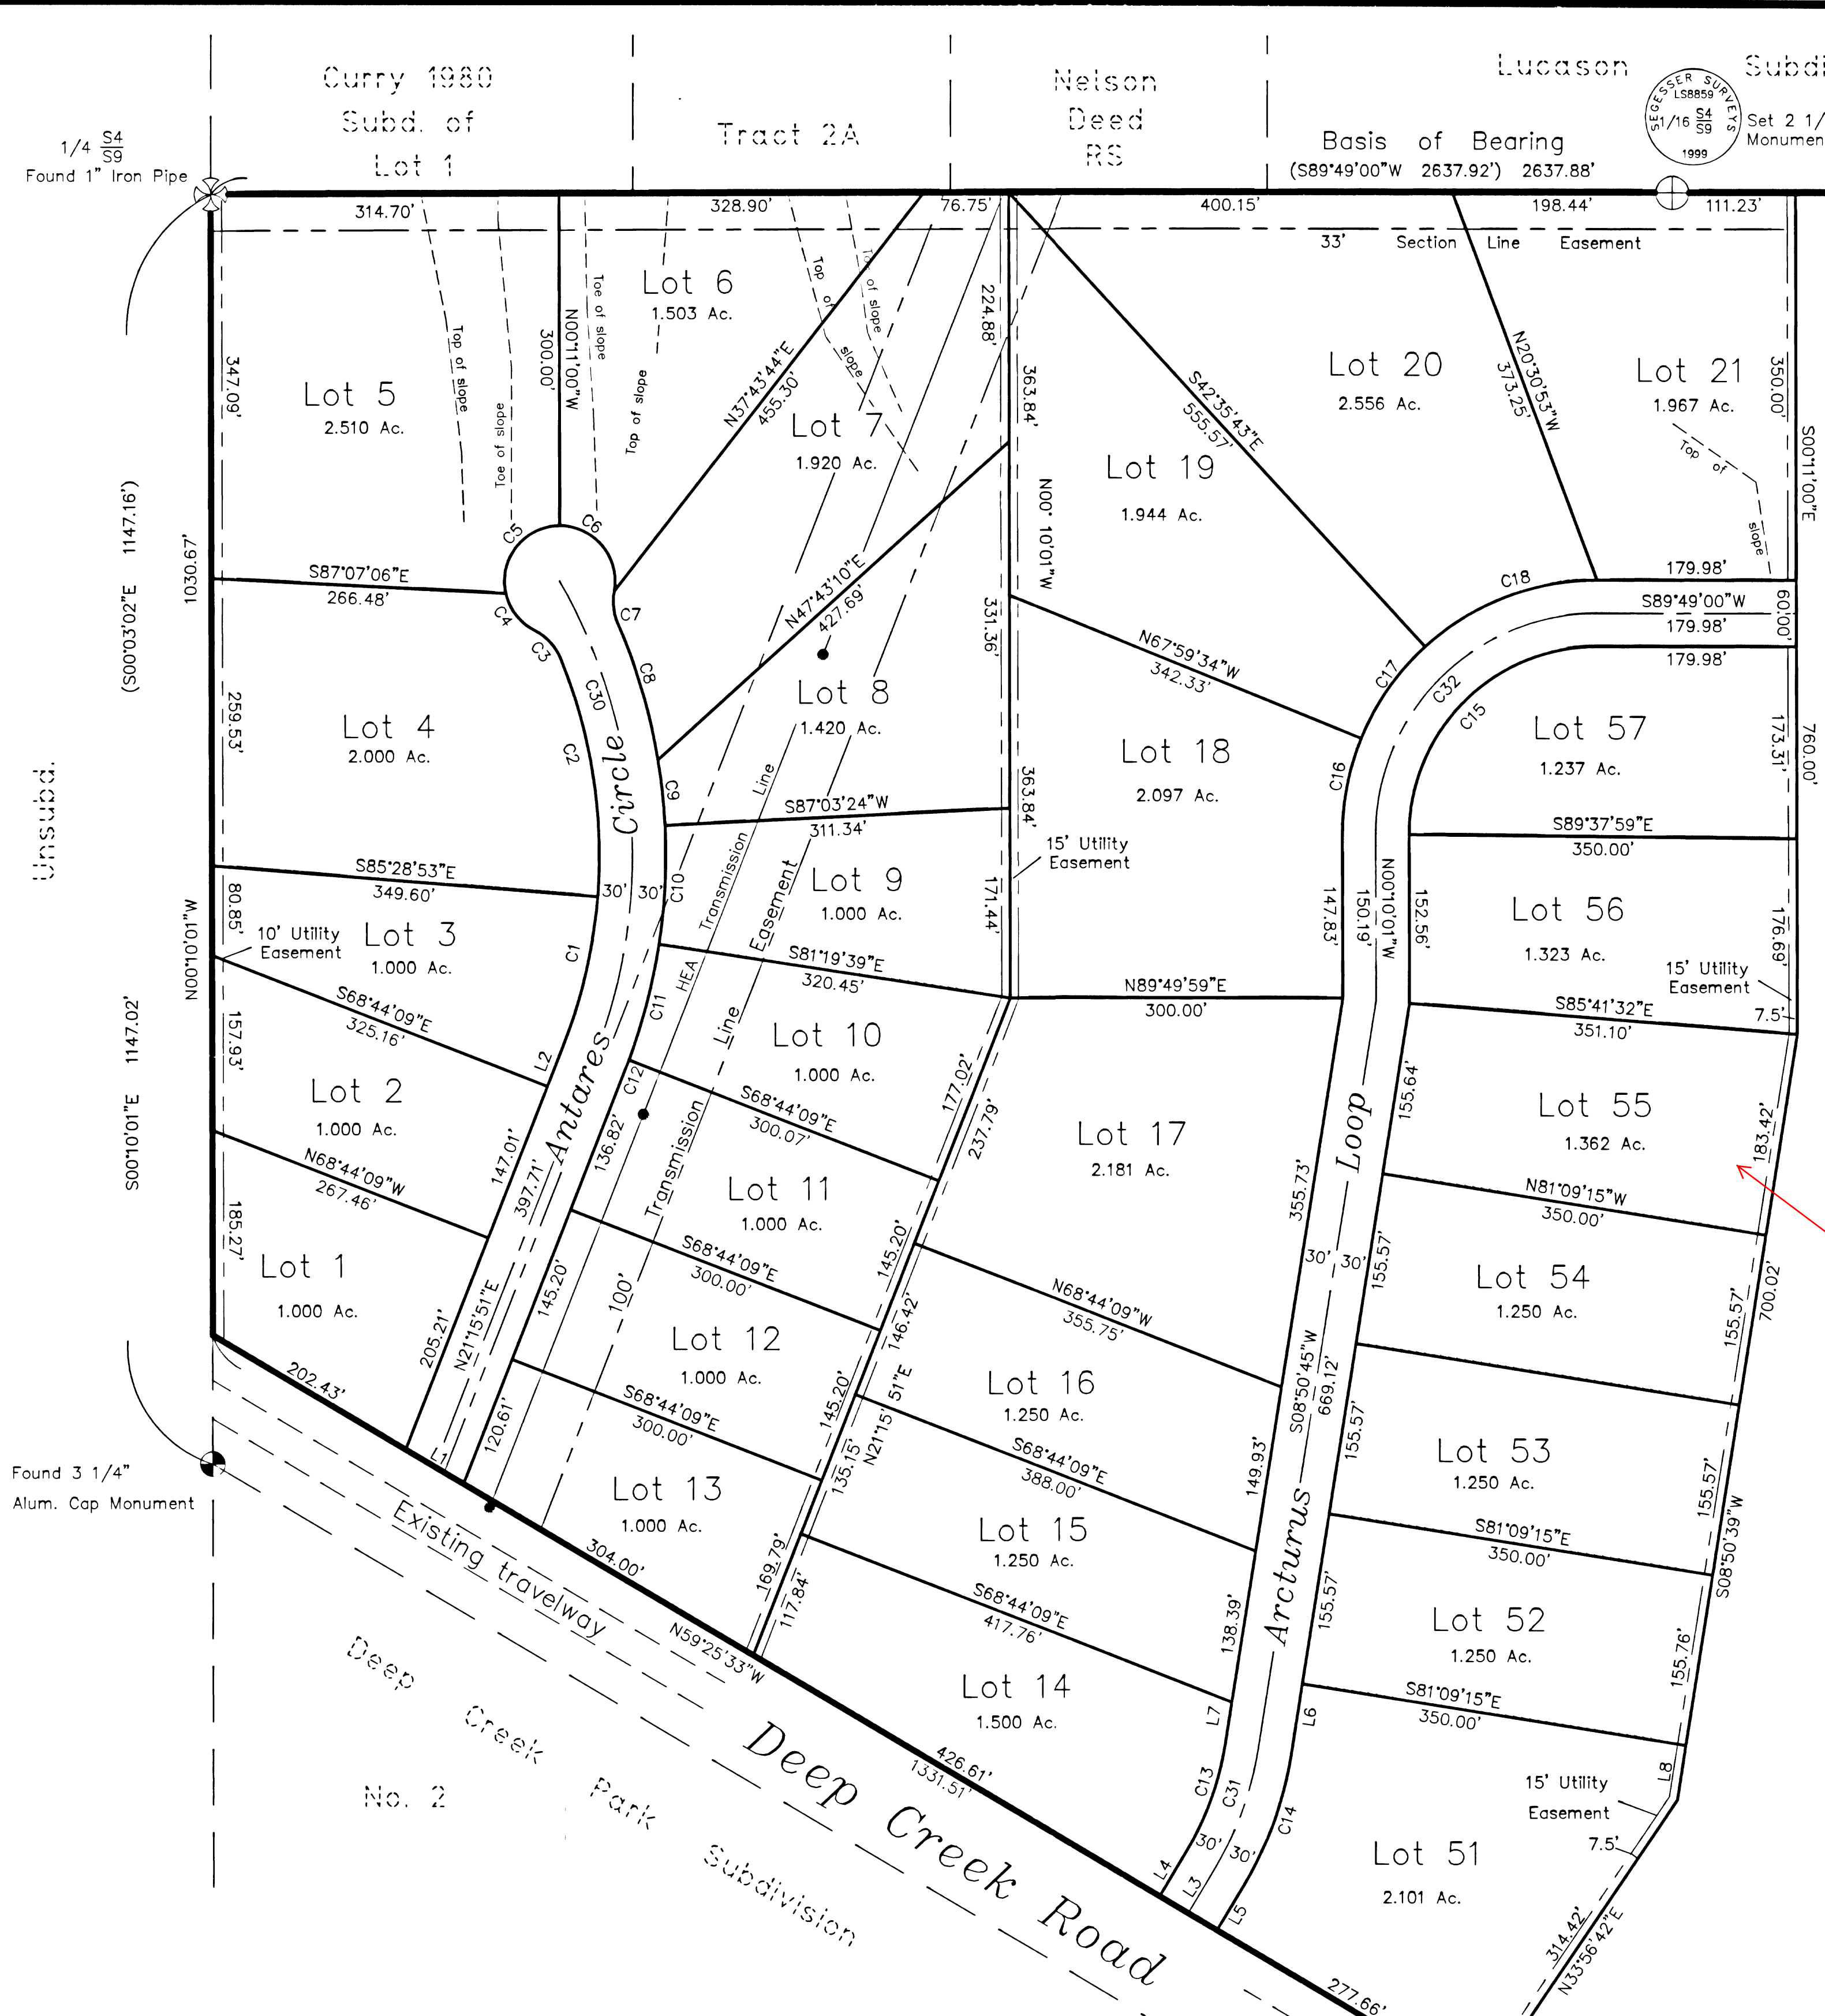

I hereby certify that: I am properly registered and licensed to practice land surveying in the State of Alaska, this plat represents a survey made by me or under my direct supervision, the monuments shown hereon actually exist as described, and all dimensions and other details are correct.

Date 9/23/99

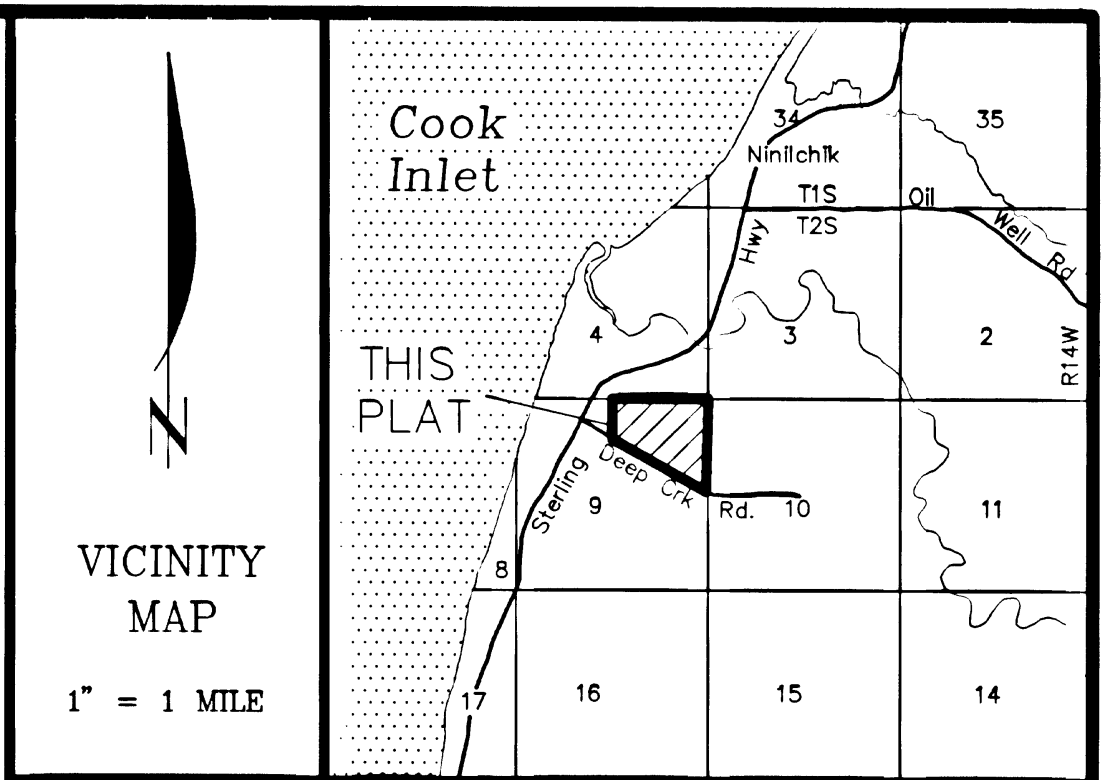

SURVEYOR'S AFFIDAVIT

This plat is being amended to correct the side lot line dimensions for Lot 30 shown on sheet 2. The above revision constitutes the sole change made to the plat from its notation in the revision block on the plat. The above revision does not alter lot areas and does not affect, or influence any change of ownership, drainage features, right-of-ways, or any other item which would adversely affect this or adjacent properties. I am therefore submitting this plat for refile as corrected.
